PRESS RELEASE

Recently, there has been published in Media about closure of BSNL. In this regard, it is clarified that there is a plan under active consideration for revival of BSNL by Govt. of India by giving suitable package in terms of VRS/4G spectrum and allowing monetization of assets available with BSNL.

We assure the esteemed customers that BSNL has always served the nation especially during difficult time of Natural Calamities and had provided affordable services throughout India even at remote places. We shall continue to do so in future.
